(a) Catalog Items (CLINs 1001-1008; 2001-2008, 3001-3008, 4001-4008 and 5001-5008). The contractor shall provide all of the items in the CLIN Description for each of the catalog equipment categories identified for each module awarded. The items shall be provided from a catalog, as defined in Federal Acquisition Regulation 2.101 under subsection (6)(i) of the "commercial item" definition. Contract type is Fixed Price, with Economic Price Adjustment (EPA).

(1) Catalogs established expressly for this contract are not acceptable.

(2) Use of a GSA Schedule as a catalog for this purpose is permissible.

(3) For each of the catalog equipment categories, the contractor shall identify a catalog, catalogs, or portions of a catalog, from which it will provide the items. The contractor shall identify the catalog for each equipment category by unique name/publication number or similar unique identifier. The contractor shall likewise identify all subsequent publications of that catalog (descendants or logical derivatives).

(4) Copies of the catalogs, including catalog changes, shall be made available electronically to the Government to establish the price baseline for the application of contractual discounts for existing items and catalog additions, and to facilitate adjustments under the Economic Price Adjustment-Standard Supplies clause of this contract. An archive of the catalogs and any catalog changes thereto shall be maintained on the Army Small Computer Program website.

(5) Items provided from a catalog shall be compliant with the terms and conditions of the ADMC-2 contract; the contractor shall provide items that are compliant with Federal laws and regulations.

(6) The contractor shall establish and maintain a web-based ordering mechanism for items provided under this contract that will include a description of the items available through the catalogs.

The catalog CLIN on the delivery order shall list the "1 lot" discounted amount for the catalog items ordered; in the description column, the following minimum information will be listed: catalog number, part number, description, item quantity, unit price and extended amount, discount applied, and the discounted grand total (which should equate to the “1 lot” amount).

(8) Catalog Ordering Constraints. The contractor is responsible for assuring that items furnished under the contract from the specified catalogs are within the scope of the catalog equipment category descriptions as set forth in Part B of the contract, comply with the terms and conditions of the contract, and comply with Federal laws and regulations (e.g., TAA). Non-compliant and out-of-scope items shall be otherwise eliminated from the catalogs for ordering purposes and shall not be purchasable under the contract. After award, the contractor shall identify in its ordering mechanism, or guide, the items from each catalog that are available for ordering under each of the catalog equipment categories. The Government reserves the right to have noncompliant items eliminated from ordering. Additionally, in the event that the contractor provides items from catalogs that exceed the scope established by the catalog equipment category descriptions, the Government reserves the right to suspend ordering under the contract. The right of suspension is in addition to and not in substitution of any other rights of the Government under the contract.

(b) Discounts. A single discount percentage shall be identified for each of the ADMC-2 equipment categories. The discount percentage shall be fixed for the life of the contract.

(1) Items shall be provided from the catalog at a price that reflects the discount for the equipment category applied to the catalog price, or a lesser price.

(2) Pricing for catalog items, as discounted, shall not exceed the lowest available GSA Federal Supply Schedule price of the catalog holder.

(3) The discount for the catalog equipment category shall apply to items provided from the catalog and any replacement or revision to the catalog to include logical derivatives and descendants.

(4) The catalog discount shall apply for the entire period of the contract, including optional periods.

(5) The price of the catalog items to which the discount is applied is subject to adjustment in accordance with the Economic Price Adjustment-Standard Supplies clause of this contract.

In order to facilitate price adjustments under the clause, certain catalog information shall be identified and provided. For each of CLIN items, the contractor shall identify a catalog on which the item is listed. The contractor shall identify the catalog for each of the CLIN items by unique name/publication number or similar unique identifier. The contractor shall likewise identify all subsequent publications of that catalog (descendants or logical derivatives).

(c) If the Contractor's applicable established price is increased after the contract date, the corresponding contract unit price shall be increased, upon the Contractor's written request to the Contracting Officer, by the same percentage that the established price is increased, and the contract shall be modified accordingly, subject to the following limitations:

(1) Reserved.

(2) The increased contract unit price shall be effective --

(4) No modification increasing a contract unit price shall be executed under this paragraph (c) until the Contracting Officer verifies the increase in the applicable established price.

(5) Within 30 days after receipt of the Contractor's written request, the Contracting Officer may cancel, without liability to either party, any undelivered portion of the contract items affected by the requested increase.

When the contractor submits a request for payment, DFAS will compare the request for payment of CLIN/SLINs with the order CLIN/SLINs. (k) Contract Authority

1. Contracting Officer’s Authority. The Contracting Officer is the only person authorized to direct changes in any of the requirements under this contract, and, notwithstanding any provisions contained elsewhere in this contract, said authority remains solely in the Contracting Officer. In the event the contractor effects any such change at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and solely at the risk of the contractor.

2. Ordering Contracting Officers within the Army, Department of Defense, and other Federal agencies are authorized to place orders within the terms of this contract and within the extent of their authority. They are not authorized to make changes to the contract terms. The Ordering Contracting Officers’ authority is limited to the individual orders.

3. Contractor’s Authority.

(l) Contract Administration. Notwithstanding the contractor’s responsibility for total management during the performance of this contract, the administration of the contract requires maximum coordination between the Government and the contractor. The following individuals will be the Government points of contact during the performance of the contract:

1. Contracting Officer (KO). All contract administration will be effected by the Contracting Officer. Communications pertaining to contractual administrative matters shall be addressed to the KO. No changes in or deviation from the terms and conditions shall be effected without a written modification to the contract executed by the KO authorizing such changes.

3. Order Contracting Officer’s Representative. The Ordering Contracting Officer may designate individuals to act as Order Contracting Officer’s Representative (COR) under any resultant delivery order. Order CORs may provide technical guidance in direction of the work, but they will not be authorized to change any of the terms and conditions of the contract or order. Order CORs will be designated by a letter of appointment from the Ordering Contracting Officer.

(m) Government-wide Purchase Card. The following describes the procedures to be used for ordering items under this contract by using the Federal Government-wide purchase card. This option to order by use of the Government-wide purchase card is strictly an alternative method of ordering by the Government and may be used in place of ordering by other order forms that comply with FAR 12.204. The Government reserves the right to unilaterally terminate the use of the credit card at any time.

1. All ordering offices may use the Government-wide purchase card, commonly referred to as the Government "credit card," as an alternative method of ordering and paying for purchases made under this contract. Purchase card orders are subject to all terms and conditions of this contract, unless otherwise stated in this provision or another provision in this contract.

2. The purchase card is specifically designed for use by the Federal Government. The purchase card is like a typical commercial credit card. However, the authorization limitations of the purchase card are more specific, i.e., only for a particular contract, monthly limitations, certain categories of products or services, etc. The purchase card will be exclusively used for official Government purchases in accordance with the prices, terms, and conditions of this contract. The purchase card order limitation shall be the micro-purchase threshold in-effect in the Federal Acquisition Regulation (FAR), Part 13, on the date the order is placed by an authorized cardholder. With respect to ordering authority, any authorized user of this contract who is an appointed, recognized Government-wide Purchase Card holder may use the purchase card as a means of purchasing items on this contract. For purchase card orders only, this waives the requirement for use of other forms that comply with FAR 12.204. All appointed, recognized Government-wide Purchase Card holders are subject to and responsible for complying with all the rules, regulations, and limits that come with his/her purchase card.

3. Credit limits for the purchase card are dictated by each using activity major command. These credit limits for the purchase card are the responsibility of the credit card holder and the approving office.

4. The contractor shall accept firm-fixed-price credit card orders under the contract made by use of an authorized purchase card.

5. For purchase card orders only, the warranty begins on the day the order is shipped.

(n) Warranty.

1. The focal point for all warranty support shall be the contractor.

2. Software Warranty. Under the basic warranty, the responsibility of the contractor is as follows. As software updates/upgrades (e.g. bug fixes, new features, enhancements, etc.)

become available to commercial customers, the contractor shall provide to the Government one copy of the changed software (with documentation) for each affected software item previously accepted by the Government. The software changes covered by the warranty are further defined as any software products and documentation which are provided for any other customer free of charge or which the software manufacturer does not consider a new product. Such changes to software or documentation (including packaging and shipping) shall be at no additional cost to the Government.

3. Warranty Coverage Period. The warranty period will commence upon date of delivery to the Government. The warranty period shall commence upon the receipt of equipment at the original Government delivery site for worldwide shipments. User receipt of an item that is inoperable upon delivery shall be resolved in accordance with the warranty provisions of the contract.

(o) Security Requirement

1. Although it is unknown exactly how many persons will be required to have any and all levels of security clearance, the Government may require security clearances, perhaps higher than top secret (top secret specialized compartmentalized information), for performance of any order under this contract. A general DD Form 254 is provided as Attachment D.4. A specific DD Form 254 will be incorporated for individual orders, as required.

2. The Contractor shall provide sufficient personnel with the required security clearances to perform the work as specified in individual orders. The personnel shall be cleared personnel in accordance with the clause entitled Security Requirements. If satisfactory security arrangements cannot be made with the contractor, the required services shall be obtained from other sources.

3. The level of classified access required shall be indicated in the individual order.

4. The contractor shall bear the cost of any security clearances required for order performance.

(p) Commercial Software Licenses

1. Commercial software and software documentation delivered under this contract shall be subject to the terms of this clause and the governing commercial product license, to the extent the latter is consistent with Federal law and FAR 12.212. Notwithstanding the foregoing, the commercial product license shall apply only if a copy of the license is provided with the delivered product. In the event of conflict between this clause and the commercial software product license, this clause shall govern.

2. All software shall, as a minimum, be licensed and priced for use on a single computer or for use on any computer at a particular site.

3. The license shall be in the name of the U. S. Government.

4. The license shall be perpetual (also referred to as a nonexclusive, paid-up, world-wide license).

6. The license shall apply to any software changes or new releases.

(q) DoD Enterprise Software Initiative (ESI)

In situations where the purchase of new commercial software, including preloaded software, is needed to satisfy the requirements of a particular order, the contractor shall facilitate maximum use of DoD Enterprise Software Initiative (ESI) and SmartBUY sources. The contractor shall utilize software from the ESI sources, as ordered. The contractor is responsible for reviewing available ESI sources. If use of software from ESI sources is

not specified initially in an order, the contractor shall coordinate with the ordering activity prior to using another source. If ordered by the Government, the contractor is authorized to order from DoD sources for obtaining the software to satisfy the requirement. Alternatively, the contractor may be required to utilize software provided from the ESI sources as Government furnished software. If the contractor is not ordered to use ESI sources in the initial order or after coordination, it need not provide the software from an ESI source. The listing of COTS software available from DoD ESI sources can be viewed on the web at

c. Subject to the above approval, the contractor, including their employees and lawful dependents, may be accorded such privileges and exemptions as specified in the U.S.-ROK SOFA, and implemented per USFK Reg 700-19, subject to the conditions and limitations imposed by the SOFA and this regulation. Those privileges and exemptions may be furnished during the performance period of the contract, subject to their availability and provided the invited contractor or technical representative status is not withdrawn by USFK. It is the responsibility of the Contracting Officer issuing the order to negotiate any SOFA privileges and compensation for those privileges between the Government and Contractor.
