- 1 If licensing by Named User Plus, the minimum is 10 Named User Plus licenses per Processor.

Enterprise Edition Options (with the exception of In-Memory Database Cache and In-Memory Database Cache for Oracle Applications) and Database Enterprise Management Packs (with the exception of Data Masking Pack and Test Data Management Pack), must match the number of licenses of the associated Oracle Database Enterprise Edition. For the purposes of licensing Data Masking Pack and Test Data Management Pack, all database servers where masked data or test data originates and database servers performing masking, or test data management operations (via GUI or command line) must be licensed. Database servers to which masked data is copied do not require a license for these programs. For the purposes of licensing the following program: In-Memory Database Cache, and In-Memory Database Cache for Oracle Applications, only the processors on which the Times Ten In-Memory Database component of the In-Memory Database Cache program is installed and/or running must be counted for the purpose of determining the number of licenses required. In addition, a minimum of 25 Named User Plus licenses per Processor must be met. In the case where the minimum number of Named User Plus licenses are/were purchased, the number of licenses may not match due to variance in core factors between the time the respective programs were licensed. If licensing by Processor, the number of licenses may not match due to variance in core factors between the time the respective programs were licensed. Associated Database is defined as the database(s) which is (are) being managed by the option. For the purposes of licensing Active Data Guard, both the primary and standby servers must be licensed.

- 3 Application Adapters are available for: PeopleSoft, SAP, Siebel & JD Edwards.

- 4 Mainframe and TP-Monitor Adapters are available for: GIGS, IMS/DB, IMS/TM, VSAM, BeanConnect and Tuxedo.

Oracle Database Standard Edition can only be licensed on servers that have a maximum capacity of 4 sockets. If licensing by Named User Plus, the minimum is 5 Named User Plus licenses. Oracle Database Standard Edition, when used with Oracle Real Application Clusters, may only be licensed on a single cluster of servers supporting up to a total maximum capacity of 4 sockets.

- 6 If licensing by Named User Plus, the minimum is 25 Named User Plus licenses per Processor.

- 7 Personal Edition provides a maximum of one Named User Plus per database.

- 8 Oracle Standard Edition One may only be licensed on servers that have a maximum capacity of 2 sockets. If licensing by Named User Plus, the minimum is 5 Named User Plus licenses.

Application Server Enterprise Management Packs must match the number of licenses of the associated Oracle Application Server (Excluding TopLink and Application Development Framework, for which these Management Packs cannot be licensed). WebLogic Server Management Pack Enterprise Edition can only be licensed with WebLogic Server Enterprise Edition, or WebLogic Server Standard Edition, or Internet Application Server Enterprise Edition, or WebLogic Suite. Application Management Suite for Oracle Fusion Applications can only be licensed with WebLogic Suite, together with the SOA Suite for Oracle Middleware and must match the number of licenses to the associated WebLogic Suite and the SOA Suite for Oracle Middleware. When licensing Management Pack for GoldenGate, the number of licenses must match the associated GoldenGate, GoldenGate for Non Oracle Database, and/or GoldenGate for Mainframe licenses. In the case where the minimum number of Named User Plus licenses are/were purchased, the number of licenses may not match due to variance in core factors between the time the respective programs were licensed. If licensing by Processor, the number of licenses may not match due to variance in core factors between the time the respective programs were licensed. An associated Application Server is defined as the Application Server(s) which is (are) being managed by the option. Note that Management Pack for Oracle Coherence may only be licensed with Coherence Enterprise Edition or Coherence Grid Edition.
