

ARMY DESKTOP AND MOBILE COMPUTING – 2 (ADMC-2)

Computer Hardware Enterprise Software and Solutions (CHES) is the Army's designated Primary Source for commercial IT. CHES provides competitive prices for genuine products and services!

The scope of the Army Desktop and Mobile Computing – 2 (ADMC-2) contracts includes commodity purchases of commercial off-the-shelf desktops, notebooks, ruggedized and semi-ruggedized devices, tablets, slates, personal digital assistants, printers, scanners, power supplies, displays, video teleconferencing equipment (VTC), digital cameras, displays, transit cases and related accessories and upgrades. Limited services include: installation, asset tagging, imaging, site survey, system configuration. Ordering is open to, Army, DOD and other Federal Agencies. In addition, government support contractors may place orders against the contracts in support of their government customers, in accordance with (IAW) FAR Part 51.

PURPOSE

The purpose of the ADMC-2 contracts is to provide Indefinite-Delivery/ Indefinite Quantity (ID/IQ) contract vehicles specifically designed as the primary source of information technology equipment to integrate, support, modernize and refresh the Army's net-centric architecture while providing standardized interfaces.

CONSOLIDATED BUY

CHES implemented the extremely cost-effective CB process in direct support of the Chief Information Officer (CIO)/G-6 strategy for leveraging the Army's buying power in acquiring commercial off-the-shelf (COTS) computer technology. Twice a year (Jan-Mar and Jun-Sep), CHES' eight Army Desktop and Mobile Computing-2 (ADMC-2) hardware vendors provide greatly reduced discounts in addition to already low pre-negotiated prices for desktop and notebook computers.
