

Lotus Forms Viewer 3.5.1

To install the Lotus Forms Viewer 3.5.1 version

- Extract the file called LotusForms351.exe to your desktop
- Click on the file to start the process.
- If you had a prior version of PureEdge or Lotus Forms Viewers installed, these will be removed once you click on the LotusForms351.exe file
- After the search is completed for PureEdge or Lotus Forms Viewers and if found, these will be removed and the installation of the LF Viewer 3.5.1 will begin
- If you did not have a prior version of PE or LF, the installation of the LF Viewer 3.5.1 will begin

The Lotus Forms Viewer 3.5.1 information for supported OS, Hardware, Software and Engineering Notes can be found at

<http://www-01.ibm.com/support/docview.wss?rs=3325&uid=swg27014845>

If you previously had the Signature Signing Software called ApproveIt Desktop installed and you removed PureEdge Viewer, you will need to uninstall the ApproveIt Desktop, restart the computer and reinstall ApproveIt Desktop.

If you did not have ApproveIt Desktop installed previously and you now have the Lotus Forms Viewer 3.5.1 installed, you may now install the ApproveIt Desktop software. NOTE: you will need to follow the steps on the AKO CaC Resource Center site to properly setup your computer if you have never had ApproveIt Desktop installed.
