SUMMARY OF CHANGES

SECTION C - DESCRIPTIONS AND SPECIFICATIONS

The following have been modified:

BPA TERMS AND CONDITIONS

DoD ESI and GSA SmartBUY BLANKET PURCHASE AGREEMENT

In the spirit of the Federal Acquisition Streamlining Act, the Department of Defense (DoD) and DLT Solutions, Inc (DLT) wish to enter into a cooperative agreement to further reduce the administrative costs of acquiring commercial items from the General Service Administration (GSA) Federal Supply Schedule Contract (GS Schedule Contract # GS-35F-4543G).

Federal Supply Schedule Contract Blanket Purchase Agreements (BPA) reduces contracting and open market costs such as: search for sources, the development of technical documents, solicitations, and the evaluation of bids and offers.

This BPA will further decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The end result is to create a purchasing mechanism for the Government that works better and costs less.

The Enterprise Software Initiative (ESI) is a joint DoD project to develop and implement a DoD enterprise process. This BPA is issued in the spirit of the policy and guidelines provided in the Defense Federal Acquisition Regulation Supplement (DFARS) Section 208.74.

This BPA has been designated as a DoD ESI and GSA SmartBUY Contract, which is open to all U.S. Executive Agencies (as defined in 48 CFR 2.1), including the DoD and authorized contractors, except as restricted herein. DLT acknowledges that the GSA and OMB have indicated their intent to issue regulations that make this BPA a mandatory source of Quest Software products for agencies of the federal government. This understanding will be conveyed to all of Quest Software's assigned federal license sales personnel, pursuant to Section E.6. of this BPA.

The Army Contracting Agency - Information Technology, E-Commerce, and Commercial Contracting Center (ITEC4) has entered into this and similar BPAs on behalf of the Assistant Project Manager Army Small Computer Program (APM-ASCP) with DLT for Quest Software. These BPAs are issued to provide the Department of Defense (DoD) database software licenses, software maintenance support, training and consulting services in support of the Department of Defense's mission. DLT shall serve as the prime contractor under this BPA and orders shall be issued directly to DLT pursuant to DLT's GSA Schedule GS-35F-4543G ("DLT's GSA Contract").

The Government and DLT Solutions, Inc. (DLT) understand and agree that changes will need to be made from time to time to this BPA. DLT and DoD ESI will continue to endeavor to negotiate DOD ESI / SmartBUY Ts&Cs for Quest Software Products and DLT shall provide a copy of its BPA to each DOD ESI / SmartBUY Partner so that each Partner may determine the extent to which such changes may apply to their BPA.

This BPA and all orders hereunder are subject to the following terms and conditions:

A. TERMS AND CONDITIONS

1. Pursuant to General Services Administration (GSA) Federal Supply Services (FSS) Contract Number GS Schedule Contract # GS-35F-4543G, DLT agrees to the following terms of a Blanket Purchase Agreement (BPA) with ACA Information Technology, E-Commerce and Commercial Contracting Center (ITEC4). All orders placed against this BPA are subject to the terms and conditions of the FSS Contract. The items on this BPA are set forth in Attachment A. License terms and conditions applicable to products acquired under this BPA are defined in the DLT License Agreement included as Attachment B. The Order of Precedence for resolving any inconsistency between the Commercial License and the GSA contract terms shall be as specified in the GSA contract's Commercial Item clause, FAR 52.212-4, and the provisions of FAR 52.212-4 specified in FAR 12.302, as required by Federal law, shall prevail over any terms of the commercial license.

The Software Products, Software Maintenance, Training and Consulting Services listed in DLT's BPA Pricing tables (including all subCLINs) comprise the most frequently ordered Quest Software products being purchased as of the date of this BPA. The price discounts for the DLT's CLINs under this BPA are provided at DLT's attached Discount Pricing table.

Software licenses purchased under this BPA shall be perpetual software licenses, subject to the license terms of DLT's GSA Contract, this BPA and the Order. However, the license terms in an order shall prevail over the applicable GSA Contract and this BPA. All orders placed against this BPA are subject to the terms and conditions of DLT's GSA Schedule Contract as specified above. The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of the BPA and the applicable GSA Contract, the provisions of the BPA will take precedence.

2. **Extent of Obligation.** **The Government estimates, but does not guarantee, that the volume of purchases through this agreement will be \$2,000,000,000.00. The Government is obligated only to the extent of authorized purchases actually made under this BPA.**

3. **Funds Obligation.** The BPA does not obligate any funds. Funds will be obligated on each delivery order.

4. **BPA Term.** This BPA is effective from the date of award through the effective period of the GSA Schedule GS-35F-4543G. Either APM-ASCP or the Contractor with ninety (90) days written notice may terminate the BPA or a portion thereof provided however, that such termination shall not effect the obligations of the Government or DLT under any then existing delivery order or lease agreement. The then existing delivery order or lease agreement shall continue in full force and effect as though the BPA had not been terminated. This expiration is contingent upon the Contractor maintaining or renewing a GSA FSS Schedule. The BPA will be reviewed annually to ensure that it still represents a "best value". The ordering period for all items under this BPA is the same as the duration of the BPA set forth above.

- A. Support Cap: Enterprise Licenses acquired under this BPA will have a 0% support cap for the initial three annual support renewals.
- B. Assignment of Enterprise Licenses: In the event an Agency that has purchased an Enterprise License under this BPA ("licensed Agency") is re-organized or restructured such that its responsibilities and operations are transferred to another Agency, such licensed Agency shall have the right to assign effected program licenses to a successor. Such assignment shall only be effective if: (1) the licensed Agency provides advance written notice to DLT; (2) the licensed Agency has continuously maintained Software Update License & Support; and, (3) the licensed Agency and the successor Agency agree to be bound in writing to appropriate modifications and/or ordering documents as mutually agreed by the parties to effectuate the assignment.
- C. Surge Usage for National Defense. Where appropriate, subject to mutual agreement, DoD and Agencies directly supporting national security efforts may be provided surge usage in the event of a war or national mobilization. The following language may be included in the ordering document, subject to contractor's agreement:

"In the event of a declaration of war or national mobilization, for a period of time no greater than twelve months, there shall be no limit on the number of licenses for the Programs for temporary use by the 'ordering Activity' to support its operations. This temporary use is only for Programs licensed on this Ordering Document."
- D. Migration: Agencies shall migrate programs previously licensed into the Enterprise License pursuant to Quest Software's then current migration policies; to the extent the Agency is up to date on technical support. At the time of migration of such program licenses, it will be necessary for the contracting officer to agree to terminate the migrated licenses and to provide the contractor written assurance in the ordering document indicating that the Agency is authorized to enter into the migration option with respect to the terminated licenses. Except for credit provided under Quest Software's then current migration policy, Customer shall not be entitled to any refund or other consideration should Customer elect to migrate to the Enterprise License.
- E. Open Market. Any programs not on DLT's GSA Schedule must be identified as open market items at the time of order placement.

5. Pricing Terms. The unit prices and rates for this BPA shall be based on the GSA Contract pricing currently in effect at the time the order is placed. Attachment A provides unit prices as explained below. Prices shall not escalate, and **Attachment A is** not subject to upward adjustment during the term of the BPA. Spot discounting is encouraged.

IF DLT makes price adjustments in any quarter, then no less than quarterly, DLT agrees that in no case shall the prices specified in this BPA be more than the prices reflected in DLT's GSA Contract for identical products and support services. No less than quarterly, DLT shall propose to adjust its BPA prices to reflect price adjustments made during the previous quarterly period under its GSA Contract for the identical products and first year technical support services.

No less than quarterly, DLT agrees to provide APM-ASCP with an electronic copy of its U.S. Price List for software products and first year technical support as well as applicable change records.

The prices will be reviewed annually, or as required to determine whether a reduction is appropriate in accordance with the price reduction provisions of the agreement. A 2.0% Acquisition, Contracting, and Technical (ACT) Fee shall be included in the prices. The contractor shall be responsible for the payment of all fees that are included in the product pricing (i.e. GSA, ACT), as calculated on the customer orders, in accordance with **Attachment D**.

6. Discount Terms and Conditions.

- a. Software Licenses and Software Maintenance Services. The single order software license and support dollar amount will be used to determine the applicable percentage discount. Software and software maintenance (if ordered at the same time with the associated software license) will receive the same percentage discount level. Software support fees included with a software license order and any applicable credits will not be included in the determination of the software license discount.
- b. Professional Services. As provided by Consulting and Educational tables.
- c. All line items on this BPA are discounted by at least three percent (3%) from Quest Software's GSA_GS Schedule Contract # GS-35F-4543G. Additional volume discounts will be applied on a transaction basis (per order) using the discount schedule in **Attachment A**.

7. Out-Year Prices. Discount levels are achieved by dollar value only and are not governed by agreement year. Purchased quantity that is credited towards the volume discount level is cumulative for the total term of the BPA. Any creditable purchases made in one year are credited in the subsequent agreement years to determine the applicable discount level. The unit price for the discount level on Attachment A is not subject to upward adjustment during the term of the BPA.

8. Price Reduction.

8.1 Most Favored Customer Prices. The prices under this BPA shall be at least as low as the prices that DLT has under any other contract instrument under like terms and conditions. If at

any time the prices under any other contract instrument become lower than the prices in this BPA, this BPA will be modified to include the lower prices.

8.2 This BPA has been designated as a DoD ESI and GSA SmartBUY contract, which is open to all U.S. Executive Agencies (as defined in 48 CFR 2.1), Independent Establishment as defined in 5 U.S.C. 104 (1) ("Agency"), including the DoD and authorized contractors, except as restricted herein.

9. License Agreement.

Notwithstanding any provision to the contrary, licenses are transferable within the authorized users as stated in paragraph B.1. Software licenses purchased under this BPA are subject to the licensing provisions and the terms of the GSA Contract. A license may be hosted on the standard desktop and the same user's laptop (not to be used concurrently). Any delivery order issued hereunder will serve as proof of purchase. Upon validation and receipt of software, customers will be provided an electronic version of the license agreement.) Attachment B is the Software License Agreement for software licenses purchased from Quest Software, Inc. Notwithstanding any provision to the contrary, except for licenses for Software used to move (including, without limitation, migrate or convert) data from one platform or system to another, licenses are transferable by Licensee with written notice to Quest to any entity into which Licensee is merged or consolidated. This statement of transferability takes precedence over the statement of non-transferability in Section 2 of Attachment B – Software License Agreement. Software licenses purchased under this BPA are non-exclusive, perpetual use licenses subject to the licensing provisions and the terms of the GSA Contract. Any delivery order issued hereunder will serve as proof of purchase.

9.1 Functionality Replacement and Extended Support. However, throughout the term of this agreement, the contractor will provide support services for a period of one year.

9.2 Rights of Survivorship of the Agreement. This Agreement shall survive unto (Enter vendor name), it's Successor, rights and assigns. The software and agreement terms and conditions as covered under this agreement shall survive this agreement notwithstanding the acquisition or merger of (Enter vendor name) by or with another entity. Any software name changes, re-packing or merger of similar products that carry forward the same or similar function of the software shall be supported with updates, upgrades and new releases under this agreement at no additional cost.

9.3 Audits. In lieu of any audit provisions in the license agreement, Licensee may perform an internal audit and will use its best efforts to keep full and accurate accounts that may be used to properly ascertain and verify numbers of licenses in use. Licensee may permit DLT to have access to Licensee records and computer systems and the right to audit such systems to insure

software use is in accordance with its license terms. All vendor personnel must have appropriate security clearances to gain access to Licensee site or data.

Unless expressly provided otherwise in an individual order, Licensee shall perform an internal audit annually and will use its best efforts to keep full and accurate accounts that may be used to properly ascertain and verify numbers of licenses in use. The Licensee will furnish DLT with a signed certification that the programs are being used pursuant to the provisions of the order including but not limited to the license quantities, or Licensee shall permit DLT to have access to Licensee records and computer systems and the right to audit such systems to insure software use is in accordance with its license terms. 3. Fast Payment Procedure.

The requirements of a proper invoice are as specified below as required by FAR 52.212-4 in the Federal Supply Schedule contract. Full text of this clause can be found on the web at URL: <http://farsite.hill.af.mil/>. The contractor shall submit an original invoice and three copies (*or electronic invoice, if authorized*), to the address specified on the delivery orders issued against the BPA. An invoice must include:

- a. Name and address of the Contractor
- b. Invoice date
- c. Contract number, contract line item number and, if applicable, the order number
- d. Description, quantity, unit of measure, unit price and extended price of the items delivered
- e. Shipping number and date of shipment, including the bill of lading number and weight of shipment if shipped on Government bill of lading
- f. Terms of any prompt payment discount offered
- g. Name and address of official to whom payment is to be sent

- h. Name, title, and phone number of the person to be notified in event of defective invoice

Invoices will be handled in accordance with the Prompt Payment Act (31 U.S.C. 3903) and Office of Management and Budget (OMB) Circular A-125. Prompt Payment Contractors are encouraged to assign an identification number to each invoice.

4. Fast Payment Procedure. The provisions of FAR 52.213-1 FAST PAYMENT PROCEDURE (*FEB 1998*) are incorporated in this BPA by reference and pertain to Credit Card purchases or other applicable order deliveries. Fast Payment procedures may be used when the conditions of FAR 13.402 are met and the delivery order authorizes Fast Payment. Full text of this clause can be found on the web at URL: <http://farsite.hill.af.mil/>.

5. Precedence. The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of the BPA and the Contractor's invoice, the provisions of the BPA will take precedence.

D. BPA MANAGEMENT AND OVERSIGHT

1. DLT shall provide centralized administration, in the form of a Program Manager, in support of all work performed under this BPA. The Program Manager, at a minimum, is required to participate in periodic program management reviews (which may require travel to a Government named site). Additional functions would include customer service, periodic program management reviews, invoicing, payment and submission of monthly and quarterly reports.

2. Report of Sales. Consistent with Clause C.22 of the GSA Schedule, a Report of Sales as described herein shall accompany the remittance of the ACT Fees to enable verification of the fee amounts rendered. Submission of the Report of Sales shall be submitted to the SPM and the PCO in electronic format within fifteen (15) days following the completion of the monthly reporting period, or as otherwise requested by the SPM. The report shall be submitted in the standard format shown in Attachment C. Negative reports are required. The SPM or PCO shall provide written approval of each report. At the end of each calendar quarter, the written approval provided to the contractor will be accompanied by a request to remit ACT fees. The SPM or PCO will provide copies of the Report of Sales on a quarterly basis to the DoD Components participating in fee sharing. If the BPA contains services, current ACT fee paid by Delivery Order and total ACT fees paid will be included in the report. Report of sales shall be by submission of the Order Transaction (OT) and Vendor Status (VS) reports submitted to ASCP as a Microsoft Excel Spreadsheet within fifteen (15) days following the completion of the monthly reporting period. The reports shall be submitted in the standard format shown in Exhibit C. Negative reports are required. The Fee For Service (FFS) Report in the standard format shown in Exhibit C and FFS payment shall be submitted by the 30th calendar day after the end of each calendar quarter. The ASCP will provide copies of the FFS Report on a quarterly basis to the Federal Components participating in fee sharing. If the BPA contains services, current FFS paid by Delivery Order and total FFS paid will be included in the report.

3. Universal Standard Products and Services Code. The Universal Standard Products and Services

Code (UNSPSC) is a required field of the Order Transaction (OT) report. The UNSPSC code permits software asset management through a standard coding structure. The UNSPSC is a

coding system used to classify both products and services for use throughout the global marketplace. The management and development of the UNSPSC Code is coordinated by ECCMA, the Electronic Commerce Code Management Association. The current version consists of more than 16,000 terms and is available free as a download at <http://www.unspsc.org>.

4. Records. The Contractor shall maintain archival copies of all orders for the life of the BPA. Copies shall be made available to the Government upon request.

5. Program Management Reviews (PMR). DLT PM shall participate in regular reviews of the progress of the BPA. DLT shall participate in regular reviews of the progress of the BPA. Reviews shall be held at least twice yearly as scheduled by the Software Product Manager. During these reviews DLT shall report on among other things, status of BPA sales, marketing and any outstanding issues concerning the BPA, as well as changes to Quest Software business practices that DLT believes may impact BPA transactions in the future. PMR agenda and presentation format shall be provided prior to each PMR. Travel expenses are the responsibility of the contractor.

6. Marketing. DLT shall dedicate reasonable resources to this effort and work to market and advertise this agreement. Desired actions include: advertising resultant vehicles on the contractor's Internet site and advertising the agreement at relevant trade shows, participation in DoD Component sponsored events and news media geared to Government/DoD IT people. DLT shall ensure that all assigned Federal sales personnel are knowledgeable of the details of this BPA.

7. Virtual IT Marketplace. ESI and GSA have partnered to create the Virtual IT Marketplace (VITM). The VITM interfaces with GSA Advantage and provides ESI agreement product information to the DoD customer. The Contractor shall follow GSA procedures for electronic loading of ESI contract information to the VITM and will be responsible to ensure that the VITM data is maintained in a current status. The VITM may be accessed at www.VITM.gov.

8. Multicore Processor Hardware. The following shall apply with respect to new acquisition of Programs available for license on a processor basis hereunder: ESI acknowledges that Quest Software's then current commercial policies with respect to processor licenses for multicore processor hardware shall apply unless different terms and conditions are negotiated within a specific Ordering Document.

9. DoD Email-IT Corridor. As the scope of the DoD Email-IT Corridor becomes finalized, DLT will work with the Government to participate in this Government electronic ordering program as is mutually agreeable.

10. APM-ASCP Roles and Responsibilities. As the central order administration point for this BPA, APM-ASCP will provide the following value-added roles and responsibilities:

- a. Provide initial check of order for correctness, work with DoD customers to eliminate errors, thus reducing DLT internal order processing costs;
- b. Resolve funding and pricing issues prior to order submission;
- c. Pre-Process orders to reduce the administrative burden and cost;
- d. Assist contractor in resolving invoice questions;
- e. Provide marketing support via Army Information Technology conferences, promotion of the BPA at other DoD conferences, and placement of Quest Software products on the DoD Electronic Mall web-site.

11. Sales Leakage. The goals of the ESI Program can only be realized through cooperation between the Government and the Contractor to direct appropriate sales through the ESI vehicles. The Contractor shall ensure that all sales personnel are aware of the ESI Program and enforce the policy that this BPA is the preferred procurement vehicle for the products within. The Contractor shall also establish a process to regularly audit sales to Government buyers, determine where sales outside the ESI vehicle are occurring, and take appropriate action to direct further sales through the ESI vehicle. Results of these audits will be presented as an agenda item during PMRs.

12. Enterprise Integration Toolkit. The Enterprise Integration Toolkit is a program developed by the Assistant Deputy Under Secretary of Defense (L&MR) Logistics Systems Management (LSM) to assist DoD Program Managers, Contracting Officers and members of the Integrated Project Team (IPT) in the acquisition and implementation of Commercial Off The Shelf (COTS) Business Systems software.

The Toolkit provides guidance, processes and tools to define program needs and determine how to best meet these needs through an external acquisition via a three-tiered Roadmap to guide the entire life-cycle from problem definition to solution roll-out. It provides a collection of best practice tools adopted from the commercial industry, and includes more than 100 best practice templates, guides, checklists, and samples.

Because the Toolkit is not vendor specific and may be applied across a variety of COTS software package implementations, including this BPA, the Contractor, shall be familiar with the Toolkit and include as part of the Marketing effort required above, a description of the Toolkit for their customers, and a link to the Enterprise Toolkit web site at: <http://www.eitoolkit.com>.

F. Standards.

1. YEAR 2000 Compliance. All products provided under this BPA shall be Y2K compliant as defined in FAR 39.002.

2. JTA Compliance. All products offered shall comply with the appropriate Publicly Available Standards (PAS) (e.g., TIA, EIA, ANSI, IEEE, ISO) and the applicable DoD information technology standards contained in the Joint Technical Architecture (JTA). More information on this standard can be found at <http://jta.disa.mil>.

3. Section 508 of the Rehabilitation Act Compliance. All products provided under this BPA must meet the applicable accessibility standards at 36 CFR Part 1194 as required by FAR Case 1999-607. General information regarding the Section 508 Act can be found at the web site www.section508.gov. Section 508 compliance information on the products provided by DLT is available at http://www.quest.com/public_sector/section_508.asp. Any requirements regarding Section 508 for services must be expressly agreed to by the Contractor and the ordering activity in the order.

G. FEE FOR SERVICE.

The cost of awarding and administering this BPA is included in the prices charged to ordering activities. The Fee for Service (FFS) is 2%. Remittance of the FFS shall be made on a calendar quarter basis (i.e., January-March; April-June; July-September; and October-December) and is due thirty (30) days following the completion of the reporting period. Negative reports are required.

The Navy, Army, Air Force, DLA and GSA (for Civilian Agency Customers) are participating in a fee-sharing program. The contractor shall collect the 2% FFS under CLIN 1004 of the BPA. The following are examples of the methodology to be used in the calculation of the FFS:

Fee for Service Report

Quest Software is required to submit a Fee for Service Report to the Army Small Computer Program by the 30th calendar day after the end of each calendar quarter. This will be a consolidated report combining the FFS Reports of all Quest Software Resellers with ESI Boas. DLT is required to submit a Fee for Service Report to Army Small Computer Program, copying Quest Software, in sufficient time to enable Quest Software to submit the report to the Army Small Computer Program by the 30th calendar day after the end of each calendar quarter. If no payments were received during the reporting period a negative report is required. Reports are non-cumulative, and should represent only the activity for the reporting period. APM-ASCP will report sales to Navy, Air Force, DLA, and GSA SmartBUY Program Management Office (SPMO) upon receipt of contractor Fee for Service Report.

ALL SALES

For DoD orders, the 2% FFS is split equally between the Service whose customer places the order and the Service that manages the ESI software agreement. In other words, any Air Force order against an ESI agreement managed by Army results in a 1% portion of the 2% fee being returned to the Air Force acquisition organization. The Army will retain the entire 2% fee under orders issued for Army activities under the ESI agreements managed by the Army. The vendor is responsible for distributing the FFS to all applicable Services in accordance with the instructions herein.

For orders placed hereunder by Civilian Agency Customers, the 2% FFS is split equally between the Army (ASCP) and the GSA SmartBUY Program Management Office (SPMO).

Note: Any change to the 2% FFS is subject to written approval by the APM, ASCP and the GSA SmartBuy Program management Office. It is the Government's responsibility to obtain these approvals and provide them to Quest Software prior to the execution of an order.
