ARMY ESI BPA

**Blanket Purchase Agreement
Army Enterprise Software Agreement (ESA)**

In the spirit of the Federal Acquisition Streamlining Act, the Army and Patriot Technologies, Inc. enter into a cooperative agreement to further reduce the administrative costs of acquiring commercial items from the General Service Administration (GSA) Federal Supply Schedule Contract GS-35F-4363D.

Federal Supply Schedule Contract Blanket Purchase Agreements (BPA) reduce contracting and open market costs such as: search for sources, the development of technical documents, solicitations, and the evaluation of bids and offers.

This BPA will further decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The end result is to create a purchasing mechanism for the Government that works better and costs less.

Attachments to this agreement are:

- Attachment A – Product and Price List
- Attachment B – License Agreement
- Attachment C – Report of Sales Format

A. TERMS AND CONDITIONS

1. Pursuant to General Services Administration (GSA) Federal Supply Services (FSS) Contract Number GS-35F-4363D, Patriot Technologies, Inc. agrees to the following terms of a Blanket Purchase Agreement (BPA) with the Army Contract Agency Information Technology, E-Commerce, and Commercial Contracting Center (ACA ITEC4). All orders placed against this BPA are subject to the terms and conditions of the FSS Contract. The items on this BPA are set forth in Attachment A. License terms and conditions applicable to products acquired under this BPA are defined in the Patriot Technologies, Inc. License Agreement included as Attachment B. The Order of Precedence for resolving any inconsistency between the Commercial License and the GSA contract terms shall be as specified in the GSA contract's Commercial Item clause, FAR 52.212-4, and the provisions of FAR 52.212-4 specified in FAR 12.302, as required by Federal law, shall prevail over any terms of the commercial license.

2. **Funds Obligation.** The BPA does not obligate any funds. Funds will be obligated on each delivery order.

3. **BPA Term.** The BPA is for one base year and four option years after date of award. This expiration is contingent upon the Contractor maintaining or renewing a GSA FSS Schedule. The BPA will be reviewed annually to ensure that it still represents a "best value".

5. **Pricing Terms.** Attachment A provides unit prices. Prices shall not escalate in the base year, and Attachment A is not subject to upward adjustment during the base year. Spot discounting is encouraged. The prices will be reviewed annually, or as required to determine

whether a reduction is appropriate in accordance with the price reduction provisions of the agreement.

7. Out-Year Prices. Discount levels are achieved by dollar value only and are not governed by agreement year. Purchased quantity that is credited towards the volume discount level is cumulative for the total term of the BPA. Any creditable purchases made in one year are credited in the subsequent agreement years to determine the applicable discount level. The unit price for the discount level on Attachment A is not subject to upward adjustment during the term of the BPA.)

8. Price Reduction.

8.1 Most Favored Customer Prices. The prices under this BPA shall be at least as low as the prices that Patriot Technologies, Inc. has under any other contract instrument under like terms and conditions. If at any time the prices under any other contract instrument become lower than the prices in this BPA, this BPA will be modified to include the lower prices.

8.2 DoD Enterprise Software Initiative (ESI) Transition. The ESI is a joint DoD project to develop and implement a DoD enterprise process. If approved, the ESI ESA will be issued in the spirit of the policy and guidelines provided in the Defense FAR Supplement (DFARS) Section 208.74. The ESI ESA is open for ordering by all Department of Defense (DoD) Agencies, U.S. Coast Guard, and Intelligence Community. The DoD must fulfill acquisition requirements for commercial software and related services, such as software maintenance in accordance with the DoD ESI. However, ESI does not dictate the products or services to be acquired.

8.3 SmartBUY Transition. OMB has recently announced the SmartBUY initiative to maximize cost savings and achieve best quality when acquiring software. The General Services Administration (GSA) is the designated Executive Agent for SmartBUY. The initiative will establish software enterprise licensing on a government-wide basis. If during the term of this ESA, Patriot Technologies, Inc. and its resellers enter into a government-wide agreement with the GSA under the SmartBUY Initiative, which includes pricing for the specific products or services under similar terms and conditions as those licensed by the DoD, neither Patriot Technologies, Inc. or its resellers will preclude the DoD from licensing products or purchasing services under a SmartBUY agreement.

9. License Agreement.

Notwithstanding any provision to the contrary, licenses are transferable within the authorized users as stated in paragraph B.1. (Example: Software licenses purchased under this BPA are Blue Coat and Smartfilter subject to the licensing provisions and the terms of the GSA Contract. A license may be hosted on the standard desktop and the same user's laptop (not to be used concurrently). Any delivery order issued hereunder will serve as proof of purchase. Upon validation and receipt of software, customers will be provided an electronic version of the license agreement.) The following provisions will be included in a license addendum if the BPA is awarded to other than the software publisher:

9.1 Functionality Replacement and Extended Support. If the form, fit, or functionality contained in any licensed products acquired hereunder is substantially reduced or if the product is replaced, and/or (the contractor), provides this same or substantially similar functionality as a separate or renamed product, then the DoD is entitled to license such software at no additional

licenses or maintenance fees. However, throughout the term of this agreement, the contractor will provide support services for a period of one year.

9.2 Rights of Survivorship of the Agreement. This Agreement shall survive unto SMS Data Products Group, Inc., its Successor, rights and assigns. The software and agreement terms and conditions as covered under this agreement shall survive this agreement notwithstanding the acquisition or merger of Patriot Technologies, Inc. by or with another entity. Any software name changes, re-packing or merger of similar products that carry forward the same or similar function of the software shall be supported with updates, upgrades and new releases under this agreement at no additional cost.

9.3 Audits. In lieu of any audit provisions in the license agreement, Licensee may perform an internal audit and will use its best efforts to keep full and accurate accounts that may be used to properly ascertain and verify numbers of licenses in use. Licensee may permit Patriot Technologies, Inc. to have access to Licensee records and computer systems and the right to audit such systems to insure software use is in accordance with its license terms. All vendor personnel must have appropriate security clearances to gain access to Licensee site or data.

10. Media. This software will be downloadable after purchase and available to be delivered electronically to the end user. This software can be made available on hard copy media, by request. Upon Credit Card or Purchase Order Approval, the end-users will be sent an email confirmation and their Patriot Technologies, Inc. Customer ID (CID) will be validated for download capability. **The software is available on CD by request.**

11. Support and Maintenance. **Updates and patches are downloadable via the customer portal over the internet. Maintenance and support are provided through customer service over the phone and internet, and field service engineers are also available when required. Updates to latest releases are included in the subscription price and can be downloaded over the internet through the customer portal. Daily updates to the URL and security database are included. Upgrades to other products (with advanced features) or to include additional users require additional charges and can be handled over the internet and through the customer portal. The price of the software includes the rights to a subscription for the use of the software and all database updates for the defined period of the subscription**

12. Technology Improvement. The Government may solicit and the BPA holder is encouraged to propose independently, technology improvements to the BPA. Proposals shall be submitted by the BPA holder and include a description of the products and/or services, an electronic copy of the pricing tables, technical literature that describes the products and/or services, and evidence of inclusion on GSA schedule. Discounts shall be at the same or greater discount level as the original BPA product prices.

13. Substitution and Technology Refreshment. If at any time during the life of this BPA, the original manufacturer of the equipment (includes software, hardware and firmware) schedules the products for discontinuation, improvement and/or replacement, the BPA holder shall provide a proposal to include the new or revised products on the BPA under the appropriate line items. Proposed prices for new or revised products shall be constructed in accordance with paragraph 8 of this BPA for most favored prices. Discounts shall be at the same or greater discount level as the original BPA product prices. Proposals shall be submitted to the Contracting Officer within seven (7) days of the BPA holder's awareness of the OEM's intent. Improvement of product includes new releases, updates, upgrades including additional features and

functionality, and successor or upgrade products.
